

Name _____ Date _____ Period _____

Design and create a Users Manual Activity

You will be assigned a Web2.0 application to investigate. Create an account for the app and investigate its functionality. Create a User’s Manual about the Web 2.0 application using Microsoft Word.

Essentially you will do the following:

- Explain what the application does. What is its purpose?
- Explain how to create an account.
- Discuss the apps features. Use screenshots when needed
- Do you feel this app has value? Explain why/when someone might want to use to his. Who might the typical user be?
- Give the app a rating from 1 [lowest] to 5 [highest] stars.

When you have completed the manual, trade with another person. Each person will read and review another person’s manual, supplying constructive comments and praise using Review and Comment tools in a Word document

Rubric:

Category	Perfect Score	Points Earned
Selected Web 2.0 App	5	
Explanation of App	5	
Directions to create account	5	
App Features and screen shots	10	
Rating and Explanation	5	
	Total: 30
